

# Makerspace Monday

## What's in the Makerspace?

- Tinker Kits
- Legos
- Origami
- Take things apart
- Carvey

## Try Something New!

This is now our second year having a Makerspace here at the Markham Library.

On Mondays after school, come to the library to delve into the world of making.

We have tinker kits for you to put together, origami paper and books, legos with an idea book, and a Carvey for carving with wood.

A Makerspace is all about students learning by discovery. So, stop by, try something new, and see what you can discover and create.

We hope to see you there!
